## New Conductive Epoxy Mounting

*Shaft Grounding Ring installation with Conductive Epoxy eliminates the need for drilling and tapping into the motor end bracket...perfect for field upgrades and installation.*

[Read more](#)

## New Colloidal Silver Shaft Coating

*New Technology - improving the conductivity of the steel shaft surface enhances the shaft voltage discharge capability in AEGIS shaft grounding applications. Maintaining a highly conductive shaft surface is especially important in critical applications or in applications where the conductive shaft surface could become compromised.*

[Read more](#)

## AEGIS SVP Shaft Voltage Probe

*For the first time you can easily and more accurately measure the voltage on a rotating shaft.*
