Subject: Coronavirus (COVID-19) Update for AEGIS® Customers

Dear Valued Customer,

The health and safety of Electro Static Technology-ITW employees and customers is our highest priority, especially during these challenging times. As we continue to monitor global developments of the Coronavirus (COVID-19) be assured that we are proactively managing our operations with health and safety in mind.

Our company has a business continuity plan in place which is being actively monitored to mitigate potential disruptions across our business. We have implemented a remote work policy for employees who have the ability to work off-site to improve social distancing in the office. All non-critical business travel has been cancelled or rescheduled. We are limiting outside visitors to only those critical for our operations to function. Our production facility has increased cleanliness protocols in both frequency and intensity. We will continue to actively manage our continuity plan and will add additional precautions when or where needed.

We are committed to continuing to provide the highest level of service, support and communication as this situation evolves.

From everyone at Electro Static Technology, we truly hope you, your families and your companies stay safe throughout this challenging time.

Sincerely,

Matt Laufik

Global Sales Manager

Electro Static Technology-ITW
